### **DETAILED ACTION**

#### **EXAMINER'S AMENDMENT AND REASON FOR ALLOWANCE**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joel Wall (508-625-1323) on 10/22/2004.

#### **EXAMINER'S AMENDMENT**

2. The application has been amended as follows:

Claim 1: Line 19, the words "provide at least one advanced intelligent network service subscribed to by the called party, said service being one of a call screening and a Centrex service and to" have been inserted after "point to".

Claim 17: Line 17, the words "to provide at least one advanced intelligent network serve subscribed to by a called party, said service being one of a call screening and a Centrex service and" have been inserted after "logic".

#### ***Allowable Subject Matter***

3. Claims 1-9, 17-21 and 26 (renumbered as claims 1-15) are allowed.

4. The following is an examiner's statement of reasons for allowance.

Prior art fails to teach methods and apparatus for handling situations where a PSTN customer has ported one or more telephone numbers to a Voice Over IP (VOIP) network wherein each independent claim (i.e. claims 1, 7 (renumbered as claim 8) and

17 (renumbered as claim 11)) requires, inter alia, a service control point to provide at least one advanced intelligent network service subscribed to by the called party, said service being one of a call screening and a Centrex service.

In other words, a service control point is used to routing ported calls to a VOIP network using a ported telephone number thereby eliminating the need to provide VOIP connectivity from the switch from which the telephone number was ported enabling subscribers who have ported a telephone number to the VOIP network the ability to continuing receiving AIN services, said service being one of call screening and a Centrex service (see Applicant's remarks on page 9, "Summary and Discussion of the Invention", paper dated 8/4/2004).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
